notifications. - Tool-tip saying "Right click to cancel" will appear when targeting a spell. - Updated icons for forfeiting, muting chat, returning home, etc. - Updated attack effect. - Added anti-cheat functionality. If you are incorrectly accused of cheating, please post in the steam forums with exactly what happened or DM me in Discord (Ben#6746). Cheating will currently only result in a loss of a match, not a ban. This is to make sure there aren't any bugs causing the cheat detector to incorrectly go off. After a week or two, if everything seems fine I'll implement a ban system. Also, it's worth noting that you cannot queue into someone unless you're both on the same game version. So make sure you download the update. Please report any bugs as well.. Wequer Update: Replays : -Added replays Replays can be accessed through the Play menu.
